EDUCATION

Clarkson University - Potsdam, NY *Expected Spring 2027*

B.S. Computer Science & B.S. Financial Information & Analysis

***Dean's List**, Spring 2026*

Relevant Coursework: Machine Learning, Algorithms & Data Structures, Applied Data Analytics, Database Systems, Applied Linear Algebra, Probability & Statistics

TECHNICAL SKILLS

Programming: Python, SQL, C++, C, JavaScript

ML/Data: Pandas, NumPy, Scikit-learn, PyTorch, NLP, RAG, FAISS, OCR

AI: LLM Applications, Retrieval-Augmented Generation, Document Processing, Model Evaluation

Tools: Git, Docker, Linux/Unix, Tableau, Excel, PowerPoint, Metabase

EXPERIENCE

Breaking Games - Data Analytics Extern, SQL & Database Architecture Oct 2026 – Present

- Designed and built an SQLite analytics database that unified six disconnected e-commerce data sources into one queryable system, with cleaned views that filtered bot traffic and bad data from downstream queries.
- Built marketing-channel attribution across 400+ referral sources to connect ad spend to revenue and recommended where to allocate the next quarter's ad budget.
- Built an HTML and Chart.js dashboard and presented a Holiday Game Plan covering what to reorder, where to spend, and what to fix.

Prologue Films - AI Workflow Automation Intern / Technical Producer Jun 2026 – Sep 2026

- Built and deployed a production AI pipeline integrating 5 APIs and 3 interchangeable image-generation backends, with authentication, persistent storage, and retry handling.
- Resolved 19+ bugs across 29 releases, including a script-parser fix that reduced false character detections from 88 to 1 (~99%) through production testing.

Pfizer - AI Engineering Extern, Supply Chain Document Processing Feb 2026 – Apr 2026

- Built AI pipelines using OCR and RAG to automate data extraction and classification from pharmaceutical vendor documents.
- Designed and evaluated retrieval configurations and chunking strategies to improve performance on noisy, scanned documents.
- Delivered a working demo interface and technical documentation covering architecture, tradeoffs, and deployment recommendations.

Cobble - Data Analytics & Insights Intern (Lead) Jul 2025 – Sep 2025

- Built 3 Metabase dashboards tracking decision effectiveness, user engagement, and poll performance, including a Decision Effectiveness Score combining participation, response time, and clarity of outcome.
- Analyzed 639 poll records to identify top-performing polls and peak engagement (543 daily active users).
- Presented findings to product, design, and marketing stakeholders and highlighted top-performing polls as models to replicate.

PROJECTS

Electron-Verse Content Pipeline | Python, FastAPI, JavaScript, Claude API, FFmpeg, Docker, Render

- Built an end-to-end AI pipeline with a FastAPI backend and a browser front end (HTML, CSS, JavaScript), automating script ingestion, shot generation, image generation, motion generation, and video assembly, deployed on Render.
- Implemented reference-image conditioning, deterministic seeding, and automated completion/failure reporting and a shared exponential-backoff retry helper used across all API-calling modules to improve pipeline reliability.

Applied AI System: Interpretable Music Recommender| Python, pytest, Streamlit, Anthropic API

- Built a two-stage recommender (retrieval, rule-based scoring, and diversity-aware ranking) over a 1,985-track catalog, with plain-language explanations and an optional LLM explanation layer that has a heuristic guardrail and a rule-based fallback.
- Evaluated it against five baselines on seven hand-labelled listeners, reaching NDCG@5 of 0.59 versus 0.11 for random and 0.45 for genre-only, with automated tests and CI on Python 3.10 - 3.12.

LEADERSHIP

African Student Union, Clarkson University - Vice President | Fall 2023 – Spring 2026

- Served as second-in-command to the President, coordinating the executive board and mentoring new officers to support smooth leadership transitions.
- Planned 10+ annual events, managing logistics, budgets, and cross-organization partnerships.

Girls Who Code, Clarkson University - Treasurer | Fall 2025 – Spring 2026

- Managed the organization's budget and financial records, collected dues and tracked membership payments, coordinated fundraising, and gave regular financial reports to other executive board members.
